Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I am recieving full disability Social Security. As this is my only source of income raising these rates would put a strain on my monthly income. I live in the Phonix-Metro and as you know there is a lot of OPEN, UNHABITED Desert space between different areas. I carry my cell phone when traveling through these areas in the event I have car problems and have to contact a tow or other emergency service.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
